Digital Childhood: Myths and Realities

Natalia Kucirkova
The Open University
Myths & realities/ key issues

1. Pedagogy versus technology
2. Technology versus nature
3. All technology is equal
4. Technology is either good or bad
5. Strategies to influence attitudes
6. Examples and recommended resources
Myths & realities/ key issues

1. Pedagogy versus technology
2. Technology versus nature
3. All technology is equal
4. Technology is either good or bad
5. Strategies to influence attitudes
6. Examples and recommended resources
What really matters

- It is the pedagogy contextualizing the use of technology rather than the device *per se* that makes a difference to children's learning

- Teachers’ beliefs, attitudes & perceptions are key to tech use in classrooms (Mumtaz, 2006)

- Teacher leads change in old and new literacies (e.g., Hartnell-Young, Vetere, 2008)

- Context, Content and individual Child matter (Guernsey, 2012; see also Levine & Guernsey, 2015)
Myths & realities/ key issues

1. Pedagogy versus technology

2. Technology versus nature

3. All technology is equal

4. Technology is either good or bad

5. Strategies to influence attitudes

6. Examples and recommended resources
Technology versus nature

What is the reality?

Today’s children...

- Spend more time with media: 26% of preschoolers watch 3+ hours of television daily (National Poll of Children’s Health, 2014)

- Use more digital devices at young age: 38% of children under 2 regularly use smart phones or tablets, and 72% of children under 8 (Common Sense Media Report, 2013)

- Touchscreen digital media is more pervasive, even in lower income homes (Pew Internet & American Life Project survey, 2013)
Myths & realities/ key issues

1. Pedagogy versus technology
2. Technology versus nature
3. All technology is equal
4. Technology is either good or bad
5. Strategies to influence attitudes
6. Examples and recommended resources
Apps
Social networking
Facebook
iPads
Mobile learning
Games and videos
## New affordances of digital books

Myths & realities/ key issues

• 1, Pedagogy versus technology

• 2, Technology versus nature

• 3, All technology is equal

• 4, Technology is either good or bad

• 5, Strategies to influence attitudes

• 6, Examples and recommended resources
Digital books versus print books

• Parents don’t use as many helpful reading strategies while sharing digital books (Korat & Or, 2010; Parish-Morris et al., 2013)

• Reductions in dialogic language & children’s story comprehension (Chiong et al., 2012; Krcmar & Cingel, 2013; Parish-Morris et al., 2013)

• Interactivity impedes children’s vocabulary learning & story comprehension (Bus et al., 2015)
New tools new solutions

- Technological competence (Stephen, McPake, Plowman)
- Digital Literacy (Marsh, Unsworth, Livingstone)
- New Literacies (Kress, Jewitt, Leu, Coiro et al.)
Thank you for the course. It changed my perception about technology being harmful to children.

It's definitely got me thinking and opening discussions here and with friends and family.

It's great to be able to access and discuss these topics in a balanced way, without a lot of the alarmism that we find in the media.
Myths & realities/ key issues

• 1, Pedagogy versus technology

• 2, Technology versus nature

• 3, All technology is equal

• 4, Technology is either good or bad

• 5, Strategies to influence attitudes

• 6, Examples and recommended resources
Theoretical pointers

- Learning is situated (Vygotsky, 1962, 1978)
- Interrelationships (Bronfenbrenner, 1986)
- Funds of knowledge (González, Moll, & Amanti, 2013)
Community projects

Design-based research

Understanding the processes . . .

Key take-home messages

- Be clear about what you mean by technology, be more specific to predict impact & assess merit

- Learning is situated (including w. iPads & apps), consider the child and the complex interrelationships in relation to the learning environment

- Be the change you want to see in the world, join communities and forums to share best practice & resources and address common challenges
Thank you for listening!
